

Deep Thinking 4 Deep Learning (pre-thinking)

NOTE: Record your wonderings on the back of this page.

How do you currently collect
baseline data from your learners?

How do you currently 'teach'
new content and skills ?

What does it mean to design authentic
and relevant learning opportunities
for your learners?

What is depth and how do you
teach for depth?

What is breadth and how do you
teach for breadth?

What is deep learning?
